INDEX

Volume 13, 1969

This year's index represents a departure from the pattern established by Esther J. Piercy for volumes 1-10 of *LRTS* and retained by the Managing Editor for volumes 11-12. In the interest of achieving greater depth of indexing while not lengthening the index unduly, the practice of repeating the full title of each article under every relevant subject entry has been abandoned. Modified keywords have been adopted as "topic" headings, and these are followed by direct page references. Articles are indexed under appropriate topic words, under each author, and under the title (if the title would not file next to the topic heading). Book reviews are indexed under title, author of the review, and author(s), editor(s), etc.; where appropriate, they are also indexed under topic words. "Filler" items are indexed under title only.

Corporate names are recorded as written, not in catalog entry form. "Initialisms" are filed as if spelled as a word, whether or not they are so pronounced. Cross-references have been used sparingly; multiple listing has been utilized in most cases instead of references.

Since *LRTS* is paged continuously, it may be helpful to note that the separate issues are apportioned as follows:

no. 1 (Winter, 1969), pp. 1-156
no. 2 (Spring, 1969), pp. 157-316
no. 3 (Summer, 1969), pp. 317-444
no. 4 (Fall, 1969), pp. 445-596
